- Introduction and overview
  - Summary of key messages
  - Europe MSP PEAK Matrix 2016
  - Everest Group remarks on MSP service providers
  - Appendix
Our research methodology is based on four pillars of strength to produce fact-based actionable and insightful research for the industry

1. Robust definitions and frameworks (Function-specific pyramids – MSP, RPO, PO, HRO, Total Value Equation (TVE), capability-success matrix, and market maturity)

2. Primary sources of information (Annual contractual & operational RFIs, service provider briefings, theme-based executive interviews, and web-based surveys)

3. Diverse set of market touch-points (Ongoing interactions across key stakeholders, inputs from a mix of perspectives and interests, supports both data analysis and thought leadership)

4. Fact-based research (Data-driven analysis with expert perspectives and trend analysis across market adoption, contracting, and service providers)

- Proprietary contractual database with detailed information of ~13 MSP providers
- Round the year tracking of all the service providers in the MSP market
- Dedicated team for MSP research spread over two continents
- Twenty years of advising clients on BPO-related decisions
- Executive-level relationships with buyers, service providers, technology providers, and industry associations
Everest Group defines MSP as the transfer of ownership of all or part of the management of an organization's contingent/temporary staffing activities on an ongoing basis.

Everest Group defines MSP deals as ones which satisfy the following key characteristics:

- A minimum of four core processes are included
- A minimum contract term of one year
- Scope of hires includes temporary/contingent hires, SoW consultants\(^1\), and independent contractors

---

\(^1\) Statement of Work (SoW) consultants are contracted for project-based work with pre-determined deliverables (as specified in the SoW) to be completed within a fixed amount of time. They are often paid on the basis of final outcome/deliverable, but maybe paid on an hourly basis as well.

Source: Everest Group (2017)
Everest Group’s MSP research is based on three key sources of proprietary information

1. Everest Group’s proprietary database of over 500 MSP deals (updated annually)
   - The database tracks the following elements of each MSP deal:
     - Buyer details including industry, size, location, and signing region
     - Deal details including ACV, term, start date, spend managed, primary pricing structure, process coverage, and geographic coverage (at country level)
     - Technology ownership and maintenance
     - Global sourcing

2. Everest Group’s proprietary database of operational capability of 13 MSP service providers (updated annually)
   - The database tracks the following capability elements for each service provider:
     - MSP clients, revenue, service suite, and employees
     - Recent MSP-related developments (investments and partnerships)
     - MSP clients split by geography, industry, scope, and buyer size
     - MSP spend split by geography, source of hires, and type of sourcing model
     - MSP delivery locations and level of offshoring
     - MSP supplier partners by geography

3. Ongoing buyer surveys and interactions
   - Everest Group’s executive interview and data collection from MSP buyers
     - The data contains the following detailed buyer perspective about MSP deals:
       - Drivers for adopting MSP and buyer-provider relationships
       - The level of buyer satisfaction and the underlying reasons

The analyses in this report are presented at two levels:
- Overall market analysis that highlights the market composition/dynamics
- The current market trends based on deal activities in the last five years
The sample size varies for different analyses based on the deal detail availability

Confidentiality: Everest Group takes its confidentiality pledge very seriously. Any contract-specific information collected is only presented back to the industry in an aggregated fashion.
A detailed view of MSP processes

1. Spend data analysis
   - Baseline analysis
   - Data "cube" construct
   - Saving-opportunities identification
   - Hire-volume rationalization

2. Vendor sourcing
   - Sourcing strategy
   - Vendor selection
   - Contracting
   - Sourcing implementation

3. Direct candidate sourcing
   - Sourcing strategy
   - Hiring requirements specifications / standards
   - Channel identification

4. Vendor management
   - Vendor relationship management
   - Contract administration
   - Service level / standards monitoring

5. Candidate selection
   - Screening
   - Assessment
   - Background verification

6. Recruitment administration
   - Candidate tracking
   - Interview scheduling and co-ordination
   - Offer-letter management
   - On-boarding

7. Day-to-day order management
   - Approval workflow
   - Requisition
   - Order distribution
   - Expediting/troubleshooting

8. Billing and payments
   - Invoice receipt
   - Consolidated billing
   - Supplier payments

9. Performance and compliance monitoring and reporting
   - Vendor assessment
   - Overall program assessment
   - Service levels / standards monitoring
   - Compliance management
   - Policies and procedures
   - Performance and results reporting

10. Vendor management system
    - Proprietary platform
    - Technology support

11. Contact center / helpdesk

### Everest Group’s remarks on service provider performance

#### Strengths

- XXX is a xxx company, which provides staffing services and comprehensive workforce solutions. It is primarily focused on the North American market.
- It can serve clients across the entire spectrum of services ranging from end-to-end engagements to short term services.
- It has strong MSP capabilities and can offer blended recruitment services.
- Its focus on understanding and then developing the client’s brand helps it provide a holistic recruitment solution to the client.
- It has niche capabilities in hiring technology professionals. Additionally, it is now focusing on hard-to-fill positions.
- Flexibility, good customer service, and high adherence to SLAs were cited as its major strengths.

#### Areas of improvement

- Due to its limited scale/experience and U.S.-only focus, XXX is losing in the fast-growing emerging markets of APAC and EMEA. Along with this, it also limits its ability to undertake large multi-country deals.
- Lack of proprietary technology platform and add-on tools is another area of concern. In order to compete with the best-in-class service providers, it needs to add significant technology capability.
- Access to better technology and bringing in greater innovation were cited as key areas of improvement.
