# Overview and methodology of the research

---

## Overview of the research

Everest Group's Next wave location profiles provide crisp, yet insightful assessment of emerging / "Next-wave" countries or cities for services delivery. These reports help global sourcing practitioners or location strategy professionals stay ahead of competition in understanding global sourcing opportunities in "Next-wave" locations.

These reports offer perspectives on key dimensions that impact a location's relative attractiveness, including:

- Key drivers, challenges and untapped opportunities for global sourcing industry
- Talent and skills availability (at both entry and experienced levels)
- Depth and maturity across functions
- Financial attractiveness (including wage inflation and attrition)
- Delivery presence of enterprises and service providers
- Key languages supported
- Key environment risks (e.g., macroeconomic, geopolitical, infrastructure, safety and security, legal and regulatory)

## The methodology of these reports includes:

- Proprietary tracking and databases on operating costs, labor pool, market activity, and risks
- Year-round tracking of 200+ locations around the world
- Coverage across all offshore, nearshore, and onshore locations across regions (APAC, Europe, North America, Latin America, Africa)
- Over 120 global projects on supporting clients on location decisions
- Executive-level relationships with buyers, service providers, technology providers, and industry associations

# This study provides perspectives on key aspects of the global sourcing market in the location; below are four charts to illustrate the coverage of the report

## Country/City | Overview

### Geographic and socio-economic indicators

Region	XX
Time zone	XX
Government type	XX
Population	XX
GDP	XX
GDP per capita	XX
Currency	XX
Corporate tax rate	XX
CPI inflation	XX
Major languages spoken	XX
Economic development agency	XX

### Economic Indicators

#### Annual GDP growth rate

#### Exchange rate movement (LCU to USD)

## Country/City | Talent and cost overview (page 1 of 2)

### Entry-level talent pool

#### Annual tertiary graduate pool 2017; '000s

### Functions supported

Functions	Maturity

# Additional research references

The following documents are recommended for additional insight into the topic covered in this report. The recommended documents either provide additional details or complementary content that may be of interest:

1. **Global Locations Annual Report 2017: Signs of Structure in a Disordered World** ([EGR-2017-2-R-2234](#)); 2017. The global services locations landscape continued to witness stable growth in 2016, in terms of revenue; however, the growth rate was slower than the previous year owing to macroeconomic slowdown, political instabilities, and volatility in equity and investment markets. Similarly, the growth rate of center setups also dropped in 2016 in comparison to 2015. The period also continued to witness a shift from traditional locations (such as India) to leverage other locations in Asia and Nearshore Europe. Additionally, there has been significant growth in delivery of disruptive technologies such as digital. The Global Locations Annual Report 2017 is a unique and comprehensive guide to understanding the nuances of the global services locations landscape and interpreting locations-related developments and trends to frame locations strategy. It presents insights into the size and growth of the global services market, update of locations activity, changes in risk profiles of locations, and an analysis of the maturity, arbitrage, and potential of locations (MAP Matrix™)
2. **IT Services Delivery from APAC** ([EGR-2017-2-R-2137](#)); 2017. While IT services delivery in the Asia Pacific region has traditionally been centered predominantly in India, companies have shown increased interest in exploring alternative locations such as the Philippines, China, Malaysia, Singapore, and even destinations such as Sri Lanka and Vietnam. In addition to lower costs than onshore U.S. and Europe, each of these locations have a unique value proposition, making them attractive choices for setting up alternative delivery centers / regional hubs for IT operations. This report provides a detailed assessment of location options within the Asia Pacific region for global IT service delivery
3. **“Next-wave” Location Profile – Pune, India** ([EGR-2017-2-R-2215](#)); 2017. Everest Group’s Next Wave Location Profiles provide crisp, yet insightful assessment of emerging / “Next-wave” countries or cities for services delivery. This report on Pune offers perspectives on global sourcing profile of Pune, key opportunities, drivers, and challenges, along with an overview of talent & skills availability, financial attractiveness, and environment risks.
