Background of the research

Employee engagement and experience are becoming increasingly important for enterprises, with several aspects – rewards & recognition, learning & development, physical & financial wellness, employee assistance, collaboration & communication, and people analytics – fast gaining traction. There is, specifically, an increase in demand for R&R services from buyers of all sizes. This rising demand is primarily driven by the need to improve engagement, productivity, and business outcomes. Buyers now demand a SaaS-based solution that can be easily integrated with broader HR systems and is highly configurable based on an organization’s values and ideas to cater to the challenges of changing workforce demographics and rapidly evolving technology landscape. The R&R market continues to grow at a significant pace, as more buyers look to SaaS-based providers to provide a superior employee experience.

In this research, we analyze how the leading R&R providers stack up against each other on various dimensions.

This research includes the following components:

- R&R PEAK Matrix assessment
- Everest Group’s remarks on R&R service providers

Scope of this report

- **Geography:** Global
- **Services:** R&R solutions and services
- Proprietary data collected from 6 R&R providers and data from Everest Group’s proprietary Transaction Intelligence (TI) database, ongoing coverage, service providers’ public disclosures, and interaction with buyers. The list of providers include Achievers, BI Worldwide, CSI Stars, Engage2Excel, Fond, HALO Recognition, Inspirus (a Sodexo Group company), Kudos, Madison PG, Maritz Motivation Solutions, MTM Recognition, O.C. Tanner, Rewards, Reward Gateway, Terryberry Company, Workhuman, WorkStride, Xexec, and Zaggle

Overview and abbreviated summary of key messages

In this research, we present detailed assessments of 19 providers featured on the R&R Solutions PEAK Matrix®. The assessment is based on Everest Group's annual RFI process for the calendar year 2019, interactions with providers themselves, client reference feedbacks/checks, and secondary research of the R&R market for analysis purpose. The assessment also provides a brief overview of the R&R solutions market in general to highlight the key trends and broad characters defining this market.

Some of the findings in this report, among others, are:

Market overview

- The demand for R&R solutions is primarily driven by challenges faced by enterprises such as talent-related issues and declining employee productivity. To help enterprises overcome these obstacles, providers are developing more innovative solutions with better coverage of service offerings
- North America constitutes a major chunk of the market and has the maximum number of employees managed; other key geographies are still developing. The R&R solutions are gaining more traction from small- and mid-size buyers as the awareness about the employee experience rises

Key investment themes

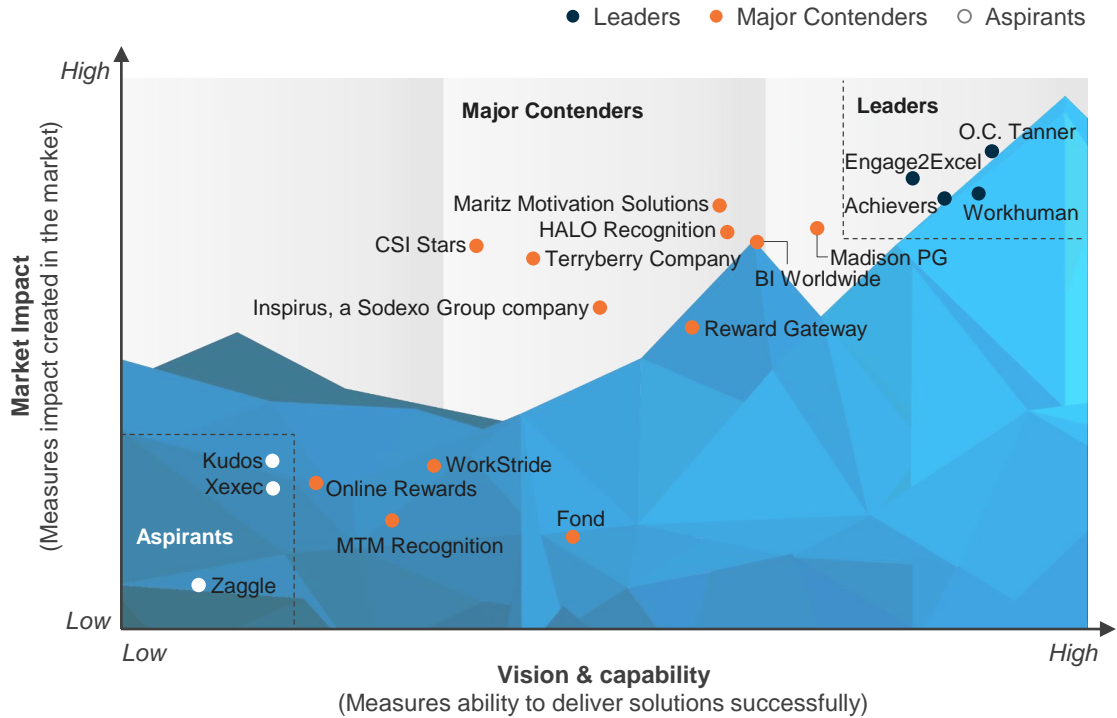

- The evolving buyer asks have pushed the service providers to take initiatives and make heavy investments across two broad categories – widening their service capability and deepening the technology capability
- The recent buyer asks are a broader set of offerings, along with value-added & support services and a more sophisticated platform coupled with next-generation technology tools

Everest Group PEAK Matrix for R&R solution

- Everest Group classified 19 R&R Outsourcing service providers on the Everest Group PEAK Matrix into three categories of Leaders, Major Contenders, and Aspirants
- The 2020 R&R Solutions PEAK Matrix positioning is as follows:
 - **Leaders:** Achievers, Engage2Excel, O.C. Tanner, and Workhuman
 - **Major Contenders:** BI Worldwide, CSI Stars, Fond, HALO Recognition, Inspirus (a Sodexo Group company), Madison PG, Maritz Motivation Solutions, MTM Recognition, Online Rewards, Reward Gateway, TerryBerry Company, and WorkStride
 - **Aspirants:** Kudos, Xexec, and Zaggle

This study offers three distinct chapters providing a deep dive into key aspects of R&R market; below are four charts to illustrate the depth of the report

Assessment of R&R Solutions PEAK Matrix® Assessment 2020

Note This assessment is based on Everest Group's estimates that leverage its proprietary Transaction Intelligence (TI) database, service provider public disclosures, and interaction with buyers. It has also taken inputs through RFIs from six service providers – four from the "Leaders" category (Achievers, Engage2Excel, O.C. Tanner, and Workhuman) and two from the "Major Contenders" category (Fond and Reward Gateway)

Strengths

- Service provider 1 is an R&R solution provider that serves clients across multiple geographies covering employees in key regions such as North America, Europe, and Asia Pacific
- Its platform is used for peer-to-peer recognition where employees can send points to their teammates which can be redeemed at the store

Areas of improvement

- Service provider 1 largely caters to mid-size enterprises (<15,000 employees) and has low adoption among large-size enterprises
- Its technological focus on next-generation solution is low
