## Introduction

With remote working becoming the norm, the world has opened for businesses of all sizes. Enterprises across the world now consider global hiring as a business advantage and opportunity, allowing them to gain insights into new markets and greater diversity in ideas. Hence it is no surprise that solutions such as Employer of Record (EOR) have witnessed explosive growth over the past couple of years. An EOR partner enables companies to legally engage with workers in a new country or region, without the need to set up a legal entity or face the risk of violating local laws. EOR offerings can span across the employee administration value chain and include services such as onboarding, benefits provision, administration, payroll, as well as time & expense management, among other administration services. Given, that providing a seamless experience to a globally distributed workforce is a key imperative, technology plays an integral role in the EOR space as enterprises look to leverage the right mix of technology and human expertise to hire and retain skilled talent. Hence, beyond increasing geographic coverage, service providers are also focusing on building sophisticated EOR platforms to offer seamless employee and manager experiences through mobile-enabled self-service and chatbots, as well as data insights on compliance and talent through interactive dashboards and custom reports.

In this research, we present detailed profiles of 15 EOR providers that have been featured on the [Employer of Record \(EOR\) Solutions PEAK Matrix® Assessment 2022](#). Our assessment is based on Everest Group’s annual RFI process for 2022, interactions with leading EOR providers, client reference checks, and an in-depth analysis of the EOR market.

In this research, we focus on:

- PEAK Matrix Assessment of EOR providers
- Detailed profiles of 15 EOR providers
