Our research methodology is based on four pillars of strength to produce actionable and insightful research for the industry

01

Robust definitions and frameworks

Function specific pyramid, Total Value Equation (TVE), PEAK Matrix®, and market maturity

02

Primary sources of information

Annual contractual and operational RFIs, provider briefings and buyer interviews, web-based surveys

03

Diverse set of market touchpoints

Ongoing interactions across key stakeholders, input from a mix of perspectives and interests, supports both data analysis and thought leadership

04

Fact-based research

Data-driven analysis with expert perspectives, trend-analysis across market adoption, contracting, and providers

Proprietary contractual database of over 400+ RCM contracts (updated annually)

Year-round tracking of 30+ RCM providers

Large repository of existing research in RCM Operations

Over 30 years of experience advising clients on strategic IT, business services, engineering services, and sourcing

Executive-level relationships with buyers, providers, technology providers, and industry associations

This report is based on two key sources of proprietary information

- Proprietary database of RCM BPS contracts of major providers (updated annually)
- The database tracks the following elements of each contract:
 - Buyer details including size and signing region
 - Contract details including provider, contract type, TCV & ACV, provider FTEs, start & end dates, duration, and delivery locations
 - Scope details including share of individual buyer locations being served in each contract, Line of Business (LOB) served, and pricing model employed
- Proprietary database of RCM providers (updated annually)
- The database tracks the following for each provider:
 - Revenue and number of FTEs
 - Number of clients
 - FTE split by different lines of business
 - Revenue split by region
 - Location and size of delivery centers
 - Technology solutions developed
- Provider briefings
 - Vision and strategy
 - Annual performance and future outlook
 - Key strengths and improvement areas
 - Emerging areas of investment
- Buyer reference interviews, ongoing buyer surveys, and interactions
 - Drivers and challenges for adopting RCM business process services
 - Assessment of provider performance
 - Emerging priorities
 - Lessons learnt and best practices

Providers assessed^{1,2,3,4}

1 Assessments for 3Gen Consulting, ACN Healthcare, ACU-Serve, ApexonHealth, Atos, CorroHealth, Elevate Patient Financial Solutions, GetixHealth, Global Healthcare Resource, IKS Health, MediRevv, MiraMed Ajuba, NextGen Healthcare, Prochant, Teleperformance, Vee Technologies, and WNS exclude provider inputs and are based on Everest Group’s proprietary Transaction Intelligence (TI) database, provider public disclosures, and interactions with buyers

2 The assessment is for the period January 2021 - December 2021 and does not include the capabilities gained by Omega Healthcare through its acquisition of Reventics, ApexonHealth, and Vasta Global in 2022

3 The assessment for MediRevv is independent and is based on its capabilities prior to its acquisition by Tegra

4 During the assessment year January 2021 – December 2021, Elevate Patient Financial Solutions was MedData. It was rebranded in 2022

The source of all content is Everest Group unless otherwise specified

Confidentiality: Everest Group takes its confidentiality pledge very seriously. Any information we collect that is contract specific will only be presented back to the industry in an aggregated fashion

Background of the research

Revenue Cycle Management (RCM) Operations PEAK Matrix® Assessment 2022

The onset of the pandemic led healthcare providers, already battling administrative inefficiencies, into a financial tailspin because elective surgeries were halted and footfall reduced, as patients chose to avoid healthcare facilities. Although the volumes are steadily bouncing back to pre-pandemic levels, the unprecedented talent shortage heightened by the pandemic is posing severe challenges for healthcare providers, as roles within revenue cycle operations have been adversely impacted. The financial burden on providers is acutely escalating with soaring wage costs and efforts to retain talent. This has steered healthcare providers into rethinking their RCM strategy to future-proof their operations from such unexpected disruptions.

As a part of this strategy overhaul, healthcare providers have become more open toward outsourcing and even offshoring, as they seek assistance from third-party providers to alleviate cost pressures and ensure the continuity and consistency of operations. Along with cost-arbitrage, healthcare providers are also seeking transformation of their revenue cycle function through technology adoption to reduce the dependency on talent and streamline operations. This report deep dives into the capabilities of leading RCM BPS players that are aiding healthcare providers in these uncertain times.

This report includes the profiles of the following 31 leading RCM BPS providers featured on the RCM operations PEAK Matrix® :

- **Leaders:** Access Healthcare, AGS Health, Cognizant, GeBBS, Omega Healthcare, Optum, and Sutherland Global Services
- **Major Contenders:** ApexonHealth, Atos, CorroHealth, Elevate Patient Financial Solutions, Exela Technologies, Firstsource, Genpact, Global Healthcare Resource, HGS Healthcare, IKS Health, MediRevv, MiraMed Ajuba, NextGen Healthcare, NTT DATA, Shearwater Health, Teleperformance, Vee Technologies, Wipro, and WNS
- **Aspirants:** 3Gen Consulting, ACN Healthcare, ACU-Serve, GetixHealth, and Prochant

RCM BPS

This report provides an insight into the RCM business process services of the provider market

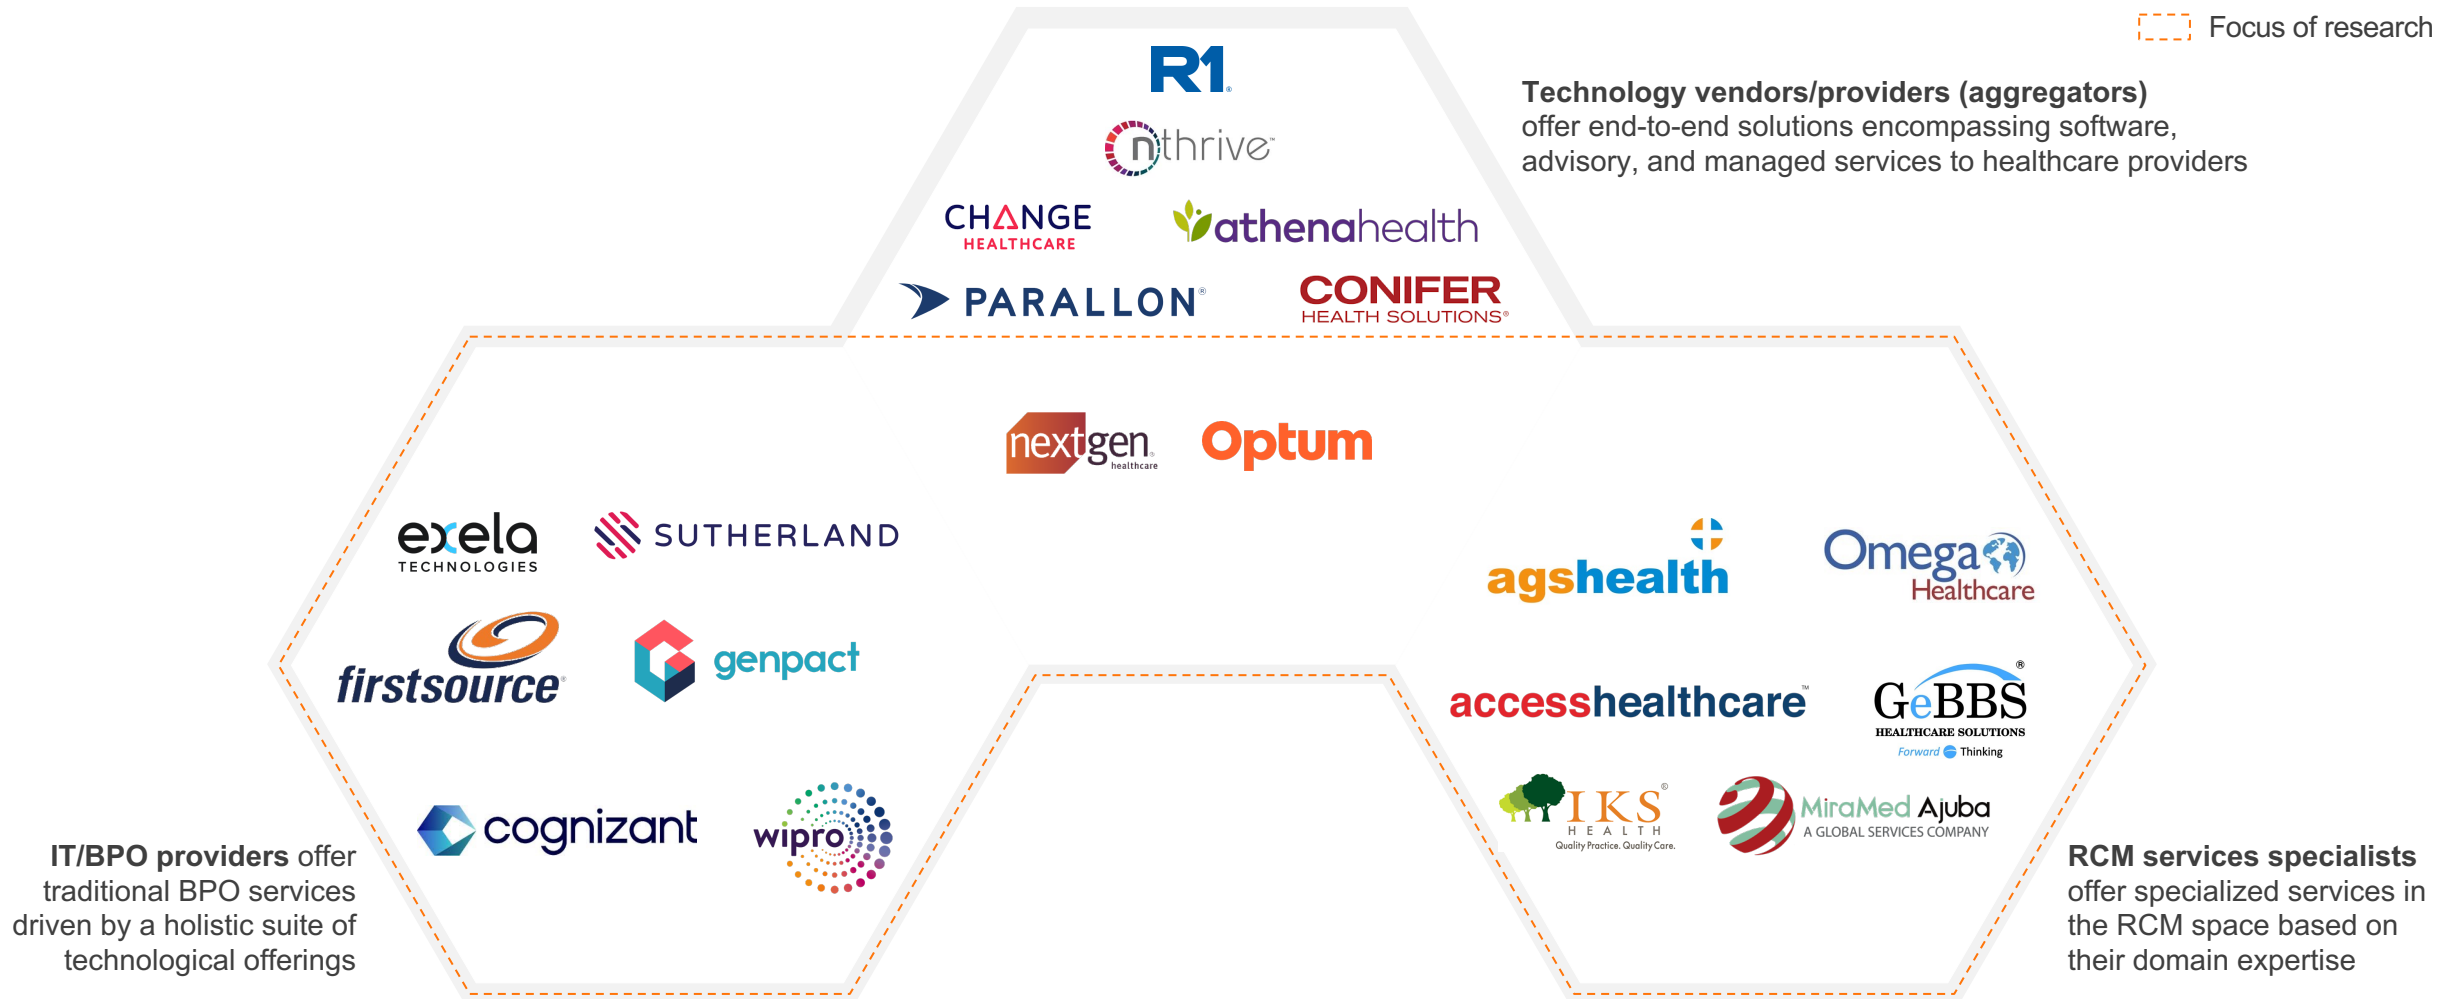

While the healthcare operations landscape is highly fragmented with in-house operations and multiple third-party vendors, this report focuses on vendors providing RCM business process services

Within these vendors providing RCM business process services, the focus of this report is on the IT/BPO providers and RCM services specialists operating in this area
