## Background of the research

- Organizations are increasingly adopting Oracle Cloud Applications (OCA) for various reasons, including legacy modernization, cost optimization, and improved stakeholder experience
- With industry-specific solutions, enterprise expectations have shifted beyond traditional back-office modernizations using ERP and SCM modules to innovations around customer and employee experience
- To help enterprises adopt OCA effectively, providers are skilling talent across products and forming partnerships with Oracle, leading cloud vendors, and specialist technology partners to develop innovative solutions
- In this research, we present an assessment of 21 service providers featured on the Oracle Cloud Applications (OCA) Services PEAK Matrix® Assessment 2023
- The assessment is based on Everest Group's annual RFI process for calendar year 2023, interactions with leading services providers, client reference checks, and an ongoing analysis of the OCA services market

**This report includes the profiles of the following 21 leading service providers featured on the OCA services PEAK Matrix:**

- **Leaders:** Accenture, Cognizant, Deloitte, Infosys, TCS, and Wipro
- **Major Contenders:** Argano, Birlasoft, Capgemini, DXC Technology, Eviden, Genpact, HCLTech, IBM, LTIMindtree, Mastek, and Tech Mahindra
- **Aspirants:** 4i apps solutions, Aspire Systems, Huron Consulting Group, and Jade Global

### Scope of this report

**Geography**  
Global

**Providers**  
21

**Services**  
Oracle Cloud Application  
services

## Overview and abbreviated summary of key messages

This report examines the global 2023 Oracle Cloud Applications (OCA) Services provider landscape and its impact on the Oracle Cloud Applications Services market. It focuses on provider position and growth in the Oracle Cloud Applications Services market, changing market dynamics and emerging provider trends, assessment of provider delivery capabilities, and key Oracle Cloud Applications Services provider profiles. It also identifies the key implications of the research findings for buyers and providers.

Some of the findings in this report, among others, are:

### OCA Services provider capability

- Oracle Cloud Applications Services providers can be classified into Leaders, Major Contenders, and Aspirants on a capability-market-share matrix
- Accenture, Cognizant, Infosys, Deloitte, TCS, and Wipro are the Leaders in this Oracle Cloud Applications Services PEAK Matrix assessment with several IT service providers emerging as Major Contenders

### Star Performer characteristics

- We identify the providers whose improvement ranks in the top quartile and award the Star Performer rating to those providers with:
  - The maximum number of top-quartile performance improvements across all of the above parameters
  - At least one area of top-quartile improvement performance in both market success and capability advancement
- Birlasoft, Cognizant, TCS, Tech Mahindra, and Wipro are the Star Performers in this Oracle Cloud Applications Services PEAK Matrix assessment

### Service Provider characteristics

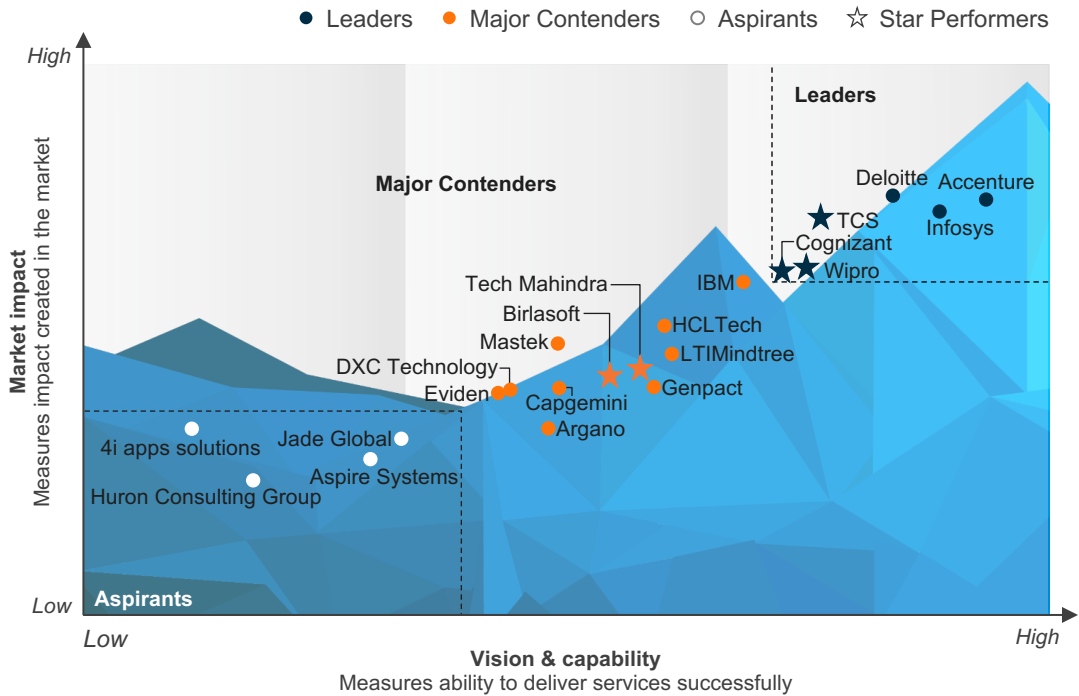

- Leaders have credible proof points of transformational engagements in various industries globally. These engagements are backed by a strong delivery network and a large pool of resources
- Leaders are characterized by their strong advisory capabilities; they have proof points of end-to-end transformation along with change management support
- Major Contenders are distinguished by their focus on pure-play implementation and managed-services engagements. They have capabilities and proof points to support both greenfield and brownfield engagements
- Aspirants offer pricing discounts and exhibit strong account management throughout the engagement

# This study offers three distinct chapters providing a deep dive into key aspects of Oracle Cloud Applications services market; below are three charts to illustrate the depth of the report

**Strengths**

- Provider 1's ability to consistently win relevant Oracle partner awards upholds its credibility in the OCA market
- Enterprises can leverage Provider 1's industry experience in the public sector and healthcare and life sciences to expedite implementation and minimize customizations
- Clients have called out its domain expertise, global delivery presence, and account management capabilities as its key strengths

**Limitations**

- Provider 1's buyer profile is skewed toward the APAC and UK regions. Clients in mature markets, such as the North America region, should further evaluate its regional delivery capabilities
- Its lack of OCA-certified resources can act as a deterrent for certain clients looking for large, complex implementations

1 Assessments for Accenture, Capgemini, Deloitte, Eviden, Huron Consulting Group, and IBM exclude service provider inputs and are based on Everest Group's proprietary Transaction Intelligence (TI) database, service provider public disclosures, and Everest Group's interactions with buyers  
 2 Eviden is an Atos business
