# Introduction

The Secure Access Service Edge (SASE) services market is undergoing rapid evolution, reshaping the enterprise security and networking landscape. The widespread adoption of cloud, the rise of a global hybrid workforce, and the rise of zero-trust principles are accelerating the adoption of SASE services. This has led enterprises to prioritize the integration of network and security functions, enhance user experience, improve security posture, and simplify management. This new set of priorities is requiring SASE service providers to evolve. Leading service providers in the EMEA region are accelerating the development of their SASE offerings by enhancing internal capabilities, forming strategic technology partnerships, and creating proprietary tools and IPs. These efforts are underpinned by innovations in advanced technologies, including AI-driven threat detection, automation, and generative AI, aimed at enhancing the performance, reliability, and adaptability of SASE solutions.

In this research, we present an assessment and detailed profiles of 15 SASE providers featured on the SASE services for EMEA Enterprises PEAK Matrix®. The assessment is based on Everest Group's annual RFI

process for the calendar year 2024, interactions with leading SASE providers in EMEA, client reference checks, and an ongoing analysis of the SASE services market.

**This report includes the profiles of the following 15 leading SASE providers featured on the SASE services for EMEA enterprises PEAK Matrix:**

- **Leaders:** Accenture, HCLTech, NTT DATA, and Wipro
- **Major Contenders:** BT Group, Capgemini, Colt Technology Services, DXC Technology, IBM, Kyndryl, Tata Communications, and Telefonica
- **Aspirants:** Coevolve, Open Systems, and SonicWall

## Scope of this report

**Geography:** EMEA

**Providers:** 15

**Services:** SASE services

## Overview and abbreviated summary of key messages

In this report, we present the assessment and detailed profiles of 13 SASE services providers featured on the SASE Services for EMEA Enterprises PEAK Matrix® Assessment 2024. The assessment is based on Everest Group's annual RFI process for calendar year 2024, interactions with leading SASE service providers, client reference checks, and an ongoing analysis of the SASE services for EMEA enterprises market

### Some of the findings in this report, among others, are:

#### [Everest Group SASE Services for EMEA Enterprises PEAK Matrix® Assessment](#)

This report includes the profiles of the following 15 SASE service providers featured on the SASE Services for EMEA Enterprises PEAK Matrix:

- **Leaders:** Accenture, HCLTech, NTT DATA, and Wipro
- **Major Contenders:** BT Group, Capgemini, Colt Technology Services, DXC Technology, IBM, Kyndryl, Tata Communications, and Telefonica
- **Aspirants:** Coevolve, Open Systems, and SonicWall

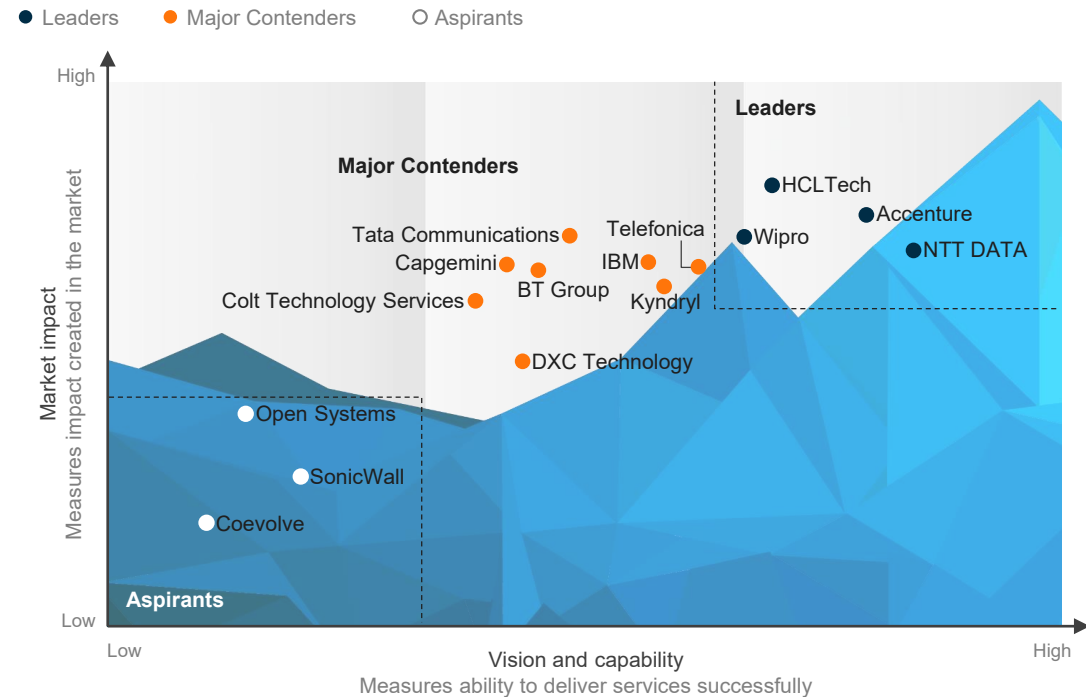

#### [SASE Services provider characteristics](#)

- Leaders have significant enterprise mindshare in the EMEA region because of their end-to-end SASE services portfolio and well-established market presence. Leaders are making substantial investments in next-generation technologies such as AI-driven network and security monitoring, AI-Ops based incident prediction and resolution, and gen AI- powered user interface to enhance overall performance, user experience, and reduce costs
- Major Contenders have developed substantial capabilities to deliver SASE services, though their service portfolios lack the balance and comprehensiveness seen among market leaders, particularly in terms of coverage across SASE segments, geographies, and industries. These providers are consistently creating internal IP and frameworks and expanding their service and technology partnership ecosystem to address existing capability gaps.
- Aspirants' SASE services business is still in the initial growth phase and currently does not serve large-scale or mega clients within the SASE services market. These providers are actively expanding their SASE services capabilities, leveraging both service and technology partnerships as well as developing internal IP and frameworks

# This study offers 15 distinct chapters providing a deep dive into key aspects of SASE Services for EMEA Enterprises market; below are three charts to illustrate the depth of the report

## Everest Group PEAK Matrix® Assessment 2024

### Everest Group SASE Services for EMEA Enterprises PEAK Matrix® Assessment 2024<sup>1</sup>

<sup>1</sup> Assessments for Accenture, BT Group, Capgemini, Coevolve, Open Systems, and SonicWall excludes provider inputs and are based on Everest Group's proprietary Transaction Intelligence (TI) database, provider public disclosures, and Everest Group's interactions with the buyers

## Capability assessment

Illustrative example

Measure of capability: ○ Low ● High

Providers	Market impact				Vision and capability				
	Market adoption	Portfolio mix	Value delivered	Overall	Vision and strategy	Scope of services offered	Innovation and investments	Delivery footprint	Overall
Provider 1	●	●	●	●	●	●	●	●	●
Provider 2	●	○	●	●	●	○	●	○	●
Provider 3	●	●	●	●	●	●	●	●	●
Provider 4	○	○	●	●	○	○	●	○	●
Provider 5	●	●	●	●	●	●	●	●	●
Provider 6	○	○	●	○	●	○	○	●	○

## Everest Group's remarks on providers

Illustrative example

Measure of capability: ○ Low ● High

Market impact				Vision and capability				
Market adoption	Portfolio mix	Value delivered	Overall	Vision and strategy	Scope of services offered	Innovation and investments	Delivery footprint	Overall
○	●	●	●	●	○	○	○	●

### Strengths

- Enterprises in the EMEA region will gain significantly from the robust local support of Provider 1, which offers significant advantages compared to peers
- It emphasizes integrating SASE-as-a-Service and CASB capabilities into SASE, with industry-specific teams addressing vertical challenges and regulations

### Limitations

- Provider 1 lags in industry-specific solutions and proprietary technologies compared to peers, which limits its ability to fulfill the unique requirements of various verticals
- Enterprises seeking AI-driven SASE delivery might not find Provider 1 suitable, as it has limited proof points and AI related investments
