Introduction

Healthcare providers have historically been bogged down by the legacy IT estate and regulations that have had the unfortunate consequence of incentivizing them to maintain the status quo. However, that is not an option anymore, particularly as healthcare providers scramble to meet the unprecedented needs of a market disrupted by workforce shortage, evolving regulations, and security threat landscape.

Service providers are ramping up capabilities through healthcare-specific partnerships and acquisitions to support enterprises on their digital journeys. This, in turn, drives the need for research and market intelligence on demand and supply trends in healthcare provider digital services. Everest Group's healthcare ITS research program addresses this market need by analyzing demand themes and service provider capabilities in healthcare provider digital services. In this report, we present an assessment of 35 healthcare ITS providers. These service providers are mapped on the Everest Group PEAK Matrix®, which is a composite index of a range of distinct metrics related to a provider's capability and market

impact. We focus on the provider digital services market size and growth, digital services themes for healthcare providers, assessment of service providers on several capabilities and market success-related dimensions, and Everest Group's independent remarks on service providers.

This report includes the profiles of the following 35 leading service providers featured on the Healthcare Provider Digital Services PEAK Matrix:

- **Leaders:** Accenture, Cognizant, Deloitte, HCLTech, NTT DATA, Optum, TCS
- **Major Contenders:** Apexon, Capgemini, CitiusTech, DXC Technology, Emids, EPAM, Eviden, EXL, GAVS Technologies, Hitachi Digital Services, HTC Global Services, IBM, Infinite Computer Solutions, Innova Solutions, LTIMindtree, Mastek, Persistent Systems, R Systems, SoftServe, Tech Mahindra, Virtusa, Wipro
- **Aspirants:** Hexaware, Indium, Jade Global, Marlabs, Mirketa, Mphasis

Scope of this report

Geography: Global

Industry: healthcare provider

Services: digital services

Overview and abbreviated summary of key messages

This report examines the global healthcare provider digital services landscape and its impact on the healthcare market. It focuses on provider position and growth in the healthcare market, changing market dynamics and emerging provider trends, and assessment of provider delivery capabilities. It also identifies the key implications of the research findings for buyers and service providers.

Some of the findings in this report, among others, are:

Healthcare provider digital services market

- There has been a strong uptick in demand for digital services in the healthcare provider market – the overall provider digital services market is close to US\$6 billion and is expected to grow at a CAGR of 5.6% between 2023 and 2028
- Generative AI is driving the transformation of digital healthcare by improving efficiency, personalizing care, offering predictive insights, ensuring compliance, and enabling scalable, collaborative solutions that enhance patient outcomes

Emerging healthcare provider digital services trends

- While the conventional focus was solely on provider reimbursement rates and improving operational efficiency, healthcare enterprises are now prioritizing the improvement of health outcomes and customer experience by leveraging technology
- The healthcare industry is experiencing increased investments in AI and analytics to enable use cases in areas such as patient engagement, care management, and value-based care

Healthcare provider digital service provider capability

- Service providers have also realized the growth in demand for healthcare provider digital services; and to support enterprises on their digital transformation journeys, they are forging industry-specific partnerships
- They are also investing in Centers of Excellence (CoEs) and innovation labs to accelerate the development of provider digital capabilities

This study offers three distinct chapters providing a deep dive into key aspects of the healthcare provider digital services market; below are three charts to illustrate the depth of the report

Everest Group PEAK Matrix® Assessment 2024

Everest Group Healthcare Provider Digital Services PEAK Matrix® Assessment 2024¹

● Leaders ● Major Contenders ○ Aspirants ☆ Star Performers

¹ Assessments for Deloitte, EPAM, Hexaware, IBM, Marlabs, Mphasis, Optum, and Wipro exclude service provider inputs and are based on Everest Group's proprietary Transaction Intelligence (TI) database, provider public disclosures, and Everest Group's interactions with healthcare buyers

Capability assessment

Illustrative example

Measure of capability: ○ Low ● High

Providers	Market impact				Vision and capability				
	Market adoption	Portfolio mix	Value delivered	Overall	Vision and strategy	Scope of services offered	Innovation and investments	Delivery footprint	Overall
Provider 1	●	●	●	●	●	●	●	●	●
Provider 2	●	○	●	●	●	○	●	○	●
Provider 3	●	●	●	●	●	●	●	●	●
Provider 4	○	○	●	●	○	○	●	●	●
Provider 5	●	●	●	●	●	●	●	●	●
Provider 6	○	○	●	○	●	○	○	●	○

Everest Group's remarks on providers

Illustrative example

Measure of capability: ○ Low ● High

Market impact				Vision and capability				
Market adoption	Portfolio mix	Value delivered	Overall	Vision and strategy	Scope of services offered	Innovation and investments	Delivery footprint	Overall
○	●	●	●	●	○	○	○	●

Strengths

- Provider 1 has invested in developing IP/frameworks across various segments of the provider value chain. It has made investments in niche areas such as hospital-at-home and medical imaging analytics to distinguish itself from its peers
- Provider 1 has a strong presence among large healthcare providers including health systems and stand-alone clinics/hospitals in the North American region

Limitations

- Provider 1 has made significant investments in enhancing its digital portfolio, but it could focus on demonstrating more proof points and create thought leaderships of those capabilities
- It can look to offer innovative price constructs such as risk-based or outcome-based models more proactively to provide price flexibility to clients
